PyroBand<sup>™</sup> is a unique flexible heating band that operates on low DC power with a quick heat up rate, up to 100°C.

It is simple to install PyroBand<sup>™</sup> onto most surfaces with its adhesive underside.

Nothing is wasted as PyroBand<sup>™</sup> can be cut to the desired lengths.

PyroBand

### Areas of Application

Domestic warming, industrial heating, de-icing, laboratories, hobbies.

#### Advantages

Paper-thin, simple to use, safe DC operation, uniform heat distribution.

#### Performance

Power per meter* (W/m)	Temperature (°C)
15	50
30	70
45	90
55	100

\*Note: Power per meter is dependent on the ambient temperature conditions .
